

Get a Free Diagnosis of Your Employee Giving Program's Health

OFFER ENDS JAN. 31, 2017

As a token of thanks for all the support you give our organization, we would like to return the favor and extend a special offer to you.

We work through a nonprofit, America's Charities, to promote our mission to employers' workplace giving programs nationwide. Since 1980, America's Charities has provided employee giving solutions to help employers achieve their social impact goals and now they would like to help you.

Now through January 31, 2017, they are offering a free 30-minute audit of your company's 2016 employee giving program performance and will share suggestions to help drive your program's continued growth and success.
